- GITHUB: [@tiffwong](https://github.com/tiffwong)
- www.tiffwong.github.io
- www.linkedin.com/in/tffwng

Skills

Programming

- HTML & CSS
- React
- TypeScript
- JavaScript
- OTHER: Git / C++ / Java

Research

- Accessibility
- Prototyping
- Usability Testing
- User Interviews

Certification

- Nielsen Norman Group UX Certification, 2023

Awards

- Drexel University Senior Design Competition, 2018 (runner-up)
- Philly CHI 12th Annual Design Slam, 2018 (winner)

Education

B.S. in Computer Science

Drexel University

SEPTEMBER 2013 – JUNE 2018

- Human-Computer Interaction
- Software Engineering

Experience

Software Engineer, Adobe

MAY 2022 – PRESENT

- Led implementation of experiments and new features within Acrobat Web, prioritizing user experience enhancements globally while actively contributing to unit and automation testing frameworks.
- Efficiently collaborate across multiple repositories to maintain code consistency and integrity, actively participating in unit and automation testing to ensure robust functionality and code reliability.

Software Engineer, Linode

MARCH 2020 – MAY 2022

- Redesigned the entire user interface to display more detailed information, improve navigation, and expand network usage metrics.
- Collaborated closely with the UX team to design workflows before development, conduct usability tests, and integrate feedback from open-source contributors.

Software Engineer, Comcast

JUNE 2018 – MARCH 2020

- Crafted high-fidelity, responsive prototypes to validate new features and facilitate A/B testing.
- Partnered closely with designers to successfully launch the award-winning Comcast Business SMB website, and was honored with the MarCom Platinum Award in 2018.

Teaching Assistant, Drexel University

SEPTEMBER 2014 – JUNE 2018

- Engaged with students to support learning, and reinforce concepts, fostering a conducive learning environment.
- Demonstrated expertise across multiple courses, including HTML, C++, and JavaScript, resulting in significant academic progress.
